316 Stainless Steel Pipe Fittings

The Right Connection®

Application
- Used to connect threaded ends of different sizes up to 1”

Features
- Enhanced performance: Our premium fittings boast a higher PSI compared to standard brass fittings, ensuring reliability and suitability for high-pressure flow applications
- Made from 316 stainless steel for strength
- Higher corrosion resistance than 304 stainless steel

Specification
- ASTM A182 Ed 2019

316 Stainless Steel Pipe Fittings

371-Series – Female Hex Coupling
375-Series – Female NPTF x Male NPTF Adapter
373-Series – NPT Reducer Hex Bushing
