The Right Connection®

Venting EZ Boss-Lock

Application
- Transfer of fluids and solids, with a safe disconnection

Sizes
- 2", 3", and 4"

Features
- EZLink® tabs utilized as secondary locking mechanism to capture adapter in case of accidental uncoupling under pressure
- Designed vent paths to help control direction of venting media
- EZ Boss-Lock cam arms for additional level of safety
- Works with all standard cam and groove adapters

Materials
- 316 stainless steel
- 356T6 aluminum
