

The image displays three distinct pieces of industrial equipment. On the left is a red manual press with a large black handle and a pressure gauge. In the center is a black and silver tool, possibly a probe or a specialized drill bit. On the right is a red manual press with a long, adjustable handle and a pressure gauge, mounted on a red base.

A collection of tools for metalworking. On the left is a large, dark, rectangular metal block with a small circular hole on its side. In the center is a cylindrical metal container with a label that reads 'BAR-1000' and contains text about metalworking. To the right of the container is a small, dark, conical metal tool. In the foreground, a long, thin metal rod is positioned horizontally, with a small metal block attached to its end.
