# Dixon® MannTek Full Flow Ball Valves

#### **Features**

- High flow rate; low pressure drop
- Spindle can be disassembled even when ball valve is installed
- Two ports one inlet and one outlet

#### **Materials**

- · Wetted parts are aluminum and stainless steel
- FPM seals

### **Specifications**

- Working pressure: 150 PSI at ambient temperature 70°F (21°C)
- Standard valve ports female NPT, socket weld for Schedule 40 pipe and grooved
- Optional ports include DN flange, butt weld, and 150# flange; contact Dixon for details

# **One-Way Full Flow Ball Valve Female NPT**

Size	Aluminum Part #
2"	1WAYBV200
3"	1WAYBV300
4"	1WAYBV400

## One-Way Full Flow Ball Valve Socket Weld

Size	Bore	Aluminum Part #
2"	2.390"	1WAYBV200SW
3"	3.530"	1WAYBV300SW

### **One-Way Full Flow Ball Valve Grooved**

Size	Aluminum Part #
2"	1WAYBV200VIC
3"	1WAYBV300VIC
