V-Ring Swivel Joints

Applications

- V-ring, also known as chevron packing, is a multiple lip seal known for its reliability and long life
- · Designed to seal even under misalignment caused by race wear from years of service

Sizes

• 2"-12"

Features

- · Three lip seals and the ability to seal even if the unit is in misalignment result in longer time between service periods, increasing up-time efficiencies, and lowering maintenance costs
- · Spring-loaded triple V-ring sealing system ensures a leakproof seal at high or low pressure and extends seal life
- · Swivels are shipped standard with the following:
- · Nitrile rubber pressure seals and dust seals
- Carbon steel ball bearings
- PTFE retainers in V-ring swivels

Materials

· Carbon steel, 316L stainless steel, and aluminum
