

# **Grooved Bolted Clamps**

#### **Features**

- · Bolt torque: 20 ft. lbs.
- Precision casting and machined dimensions provide an exact fit and great appearance
- · Use of lock nuts prevents clamps from loosening in high vibration applications
- · Leak-tight connection
- Intended for tank truck applications only
- Unlike steel groove clamps that secure pipe ends with high clamp force against the tubing walls, the Dixon<sup>®</sup> bolted clamp takes the full bolt force and locks in the groove of the tube preventing distortion of the tube diameter
- · White nitrile rubber for use in dry bulk food applications
