

# Dixon Bayco® FloTech® Junction Boxes

The Right Connection®

## Application

- FT7500-Series junction boxes are designed to provide a convenient, safe, and protected point of service for rack cord accessories. When installed correctly, the junction box will protect rack cords from excessive wear and tear, and cord connections from water and corrosion while in harsh environments

## Features

- Water-tight construction helps prevent condensation and moisture from causing corrosion on the with rack connections

- Twelve position terminal block for quick replacement of various cord types including optic, thermistor, ground, and deadman cables
- Large internal volume allows ample room for wiring and easy installation
- Mesh cord grip reduces cable strain and prevent cable pull-out
- Integrated cord hook holds the cable while not in use

## Material

- Powder coated weather-resistant aluminum
